

Duiske College is delighted to announce that we are partnering with ExamRevision.ie, a high-quality online study and revision platform designed specifically for our Junior Cycle and Leaving Certificate students.

ExamRevision.ie provides:

- Short, easy-to-follow video lessons created by experienced Irish teachers
- Clear revision notes aligned with the curriculum
- Exam-style questions and self-correcting quizzes to build confidence
- Topic-by-topic practice, helping students identify areas to improve
- Access anytime, anywhere, supporting independent learning and good study habits

Why we are using it:

This resource helps students break topics into manageable steps, revise more effectively, and prepare for exams with greater confidence. It also allows teachers to see what students are finding difficult so we can offer more targeted support. In Duiske College we pride ourselves on the care our students receive and the academic progress they can attain, and we feel this will be another valuable, high-impact tool that supports student progress, confidence and exam success.

All students will receive login details and training over the next 2 weeks, and we encourage parents/guardians to explore the platform with them and use it as part of their regular study routine. If you have any questions, please contact the school. Thanks
